ABOUT

My name is Akshay Benny, a full-stack web developer who is dedicated to learning new things, specializes in building fast responsive web applications and a Mechanical Engineering graduate from Cochin University Of Science And Technology with background in UI designing.

PROJECTS

E-COMMERCE WEBSITE

React, NodeJs, Express, Mongoose, Redux-toolkit, Razorpay

Users can sign into their account or log out, add products to cart and make payment. It includes additional features like pagination, search functionality and more.

PROJECT MANAGEMENT SYSTEM

React, Express, Mongoose, GraphQL, Apollo Client, Jest

A project management system in which we can add clients, add projects which are connected to the clients with CRUD functionality and user authentication.

TWITTER CLONE

NextJs, Next-auth, Firebase, Recoil, Tailwind CSS

A clone of Twitter webapp with user authentication. Users can add or remove tweets, like or unlike tweets and add comment to a tweet.

GOOGLE CLONE

NextJs, Google search API, Tailwind CSS

A clone of Google with server side rendering, integrated with Google search API in which users can search for anything and get responses in web and image categories with user authentication.
